2023 CTO Workshop – Above-the-Net-Services

Introduction

Jakob Tendel, DFN

Work Package co-leader WP4, Above-the-Net-Services

CTO Workshop

27 September 2023

GN5-1

Housekeeping

1

Tight timeline

Need to be fair to all speakers and topics

2

Two breaks

For comfort and concentration

3

Topic segments

- 7 min presentation
- 20min **discussion**
- 3 min summary
- Menti survey
  - Significant common interest?
  - Volunteer to draft proposal.

4

Recordings

presentations only
Discussion will not be recorded

„Above the Net" in the GÉANT context

What is it?

Focus on end-user ready digital services

Centre of gravity lies in cloud services

Has sometimes felt like an "other" bucket

Collecting more remotely related other subjects

What could it be?
Possible scenarios

Continuity

Keep the topics and packaging
Cloud Framework
Some services innovation

Evolve in scope

Widen the procurement scope?

Radical departure

Refocus on other topics?
Restructure the "slicing of the cake"?

Rethink distribution of activities
across the community landscape?

Scope of this CTO workshop

- Topics cover wide field of possible future work

- Could be for GN5 project, but maybe others

- Core question always:

Where can we create a unique common good through specific collective action?

- The division of work to funding comes later
  - Especially relevant to the critical, but very "operations" activities
  - This work needs longer-term sustainability in a healthy dynamic

Today's topics

Infrastructure cloud and videoconference

Joint activity towards commercial suppliers

Artificial Intelligence - AI

Research Data sharing

Education

Thank You
